izibill

easy charging

Order, plug in & start charging

CHARGING YOUR ELECTRIC CAR
HAS NEVER BEEN EASIER

Charge your car with izibill
anywhere, anytime
at the lowest cost

Every socket is a potential charging point

Charging is possible everywhere. To use izibill, all you need is a socket.

Optimize battery lifetime

Slow charging sustainably extends the lifetime of your EV battery.

Cost efficiency and transparency

The izibill app gives you a quick overview of consumption and costs, which are immediately settled with the socket owner.

Convert any socket into a registered charging point by applying an izichip sticker.

Easy charging at a low cost

STARTER KIT CONTAINS:

Fleet managers, choose izibill: the easy, cost-effective and automated solution for bill settlement.

Charging your electric car has never been easier

ORDER NOW AND CHARGE YOUR CAR WITH
JUST A SMALL, PORTABLE DEVICE

ADMINISTRATOR : ONE-STEP SETUP

Order your izibill package

You'll receive the starter kit containing the izibox and 5 izichips, as well as access to the online iziportal.

The izibox will already be linked to the paying account.

DRIVER : STEP 01

Download the izibill app

The app will prompt you to register your first izichip.

Each izichip identifies a specific wall socket, and tells us where to send payment for electricity consumption.

DRIVER : STEP 02

Apply the izichip to your socket

The izichip is adhesive and easy to attach inside the socket.

You only need to do this once for each socket you want to add to the izibill network.

DRIVER : GET DRIVING

Charge and get paid

Plug in your izibox and start charging with the izibill app! izibill keeps track of energy consumption, calculates your usage instantly and ensures automatic payment of the socket owner.

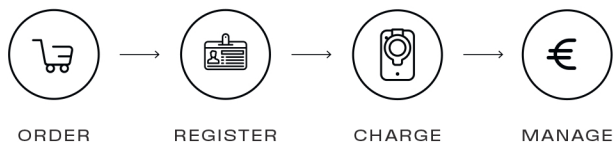

Charge your car with izibill anywhere, anytime at the lowest cost

Instantly expand your EV charging capacity
by simply adding extra charging points.
